

Panel Update
Acute Hepatitis Panel
Core Chemistry

- Effective 2/2/2016, the Acute Hepatitis panel continues to be offered by the Detroit Medical Center University Laboratories. The CMS approved Acute Hepatitis panel is order code 214536 (HEPAP).
- The HEPAP panel includes the four tests: Hepatitis A IgM Antibody, Hepatitis B Core IgM Antibody, Hepatitis B Surface Antigen, and Hepatitis C Antibody.
- For Outreach clients using manual requisitions, the panel can be found on the Routine Tests requisition, under the heading "Panels". See screenshot below.
