

# Welcome

Dear Valued Customer:

On behalf of the Detroit Medical Center, DMC University Laboratories and the Department of Pathology at Wayne State University School of Medicine, I would like to welcome you and your staff to our laboratories and thank you for taking the time to learn more about us.

DMC University Laboratories has been providing comprehensive, high-end laboratory services to the communities in and around Detroit for the last 20 years. We are the largest hospital/university based laboratory in the State of Michigan. We offer a wide range of laboratory testing in chemistry, hematology, microbiology, all areas of subspecialty surgical pathology, cytopathology and state-of-the-art testing in molecular genetics, cytogenetics, biochemical genetics and immunogenetics. We have rapid response laboratories, a large fleet of couriers, patient service centers conveniently located throughout Southeast Michigan, and a Client Services Department staffed with medical technologists and professional client service representatives.

All of our medical directors and many of our technical directors are faculty at Wayne State University School of Medicine, with many enjoying national and international expertise in their fields. In partnership with the University, we have the finest scientists in the country teaching, mentoring and managing our day-to-day activities. Our medical and technical directors are located on-site within DMC University Laboratories and are always available for consultations with our clients. We appreciate that our customers value the expert opinion that comes with the growing complexity of laboratory testing and we are committed to provide this timely and friendly expertise.

Our faculty and staff have contributed to shaping the future of laboratory medicine, by spearheading innovative research and providing a supportive environment. DMC University Laboratories is a recognized leader in laboratory automation and efficiency.

DMC University Laboratories' Mission/Vision is to provide high-quality and efficient medical diagnostic laboratory services to DMC physicians, patients and ambulatory communities. We are committed to providing extraordinary care, where the patient comes first.

Please take some time to browse our web site at [www.dmc.ul.org](http://www.dmc.ul.org) and learn more about the programs and services available here at DMCUL. We are proud of our reputation for providing quality health care and our history of contribution to our community. We look forward to serving you in the future.

Sincerely,

Wael Sakr, MD  
Chairman and Specialist-In-Chief  
Detroit Medical Center
